CASA ECO

Residential · Lisbon, Portugal

CLIENT	Private
YEAR	2015
AREA	160 m²
PROGRAMME	Residential
STATUS	Completed

Eco House reflects the conservation, renovation and extension of its original house. In order to keep the original features of the main house, characteristic of its neighbourhood, the extension is made only in the backyard. A new volume rises from the new Patio. It is connected to the original building through another volume made of glass that makes the new entrance of the house. Besides that, different architectural languages emphasize the distinction between old and new.
