The rehabilitation and design of the Chalet Conde de Almeida Araújo respected the eclectic, mannerist and art déco architectural language of the original construction of 1904. Two fires destroyed all the interiors of the building. We believe the original finishing works were full of detail, therefore the proposal is based on a reinterpretation of similar palaces of the same period. A dialogue between past and present is established by a combination of the finest details and contemporary furniture while the use of noble materials, such as wood and stone, dignify the spaces.
