

MECHANICAL CITY

Research · Almada, Portugal

YEAR 2009
 PROGRAMME Research
 STATUS Project

Mechanical City & Rubik House is an urban rehabilitation proposal for the Lisnave waterfront in Almada, covering the whole riverfront from Alfeite to Cacilhas. The project imagines a city of research and engineering: a green, agricultural and linear city that lives with the water, where mechanics is at once an urban system, a city in motion and a way of living.
