TA OFFICES

Offices · Luanda, Angola

CLIENT	Private
YEAR	2011
AREA	730 m²
PROGRAMME	Offices
STATUS	Project

The African native tree baobab inspires the TA Offices Interior Design concept: bring nature to the interior space. bring nature to the interior space. The curvilinear shape of the building defines the division between spaces. A fluid path connects workplaces with the lounge allowing magnificent views over Luanda's bay to everyone. This path is created by an organic wall made of vertical wooden planks of American Walnut wood, which can also be used as bookshelves. As for the finishing works we have chosen natural stone and wood painted in white.
