PORTFOLIO

ARCHITECTURE · INTERIOR DESIGN · GRAPHIC DESIGN · CONSULTING — LISBON

01 INTRODUCTION

TEKSTUDIO is an architecture and design studio founded in Lisbon in 2011. We design houses, buildings, interiors and brands, with a single team from the first sketch to handover.

2011	6	4	421	138	479 979	358
FOUNDED	COUNTRIES	SERVICES	PLACES TO WORK, LIVE AND LOVE	PROJECTS	M² DESIGNED	SPACES DESIGNED FOR LIVING

Our team brings together architects, designers and engineers, offering a multidisciplinary service tailored to the needs of each client and shaped by several fields of architecture and design.

TEKSTUDIO is led by architect Bruna Serralheiro, responsible for the entire creative area, and engineer João Torres, responsible for the company's financial management and for supporting clients' business plans.

Before founding TEKSTUDIO, Bruna Serralheiro worked at several renowned studios, including that of Souto Moura. João Torres brings a different perspective, gained through his professional career (Nokia Siemens, Amazon, UBER) and academic background (MBA at London Business School).

STUDIO

We work across architecture, urbanism, landscape architecture, interior design and graphic design, with a focus on spatial innovation and on people.

Our philosophy grows from a fascination with architecture as a human expression and a way of passing on knowledge. Designing begins with a pen and paper: communicating ideas and searching for the best solution. Clients are part of the team, in a dialogue where listening and acting make it possible to meet all their needs.

Each project calls for its own strategy. Sustainability guides every decision, from the choice of materials to the durability of spaces.

03 METHOD

METHOD

We integrate technology into every phase of the project, from analysis to construction supervision.

BIM

3D models holding all the information of the building, shared by everyone involved in the project.

BIMX

We share every project in BIMx: clients explore the 3D model, plans and sections on a tablet or phone.

VIRTUAL REALITY

Clients walk through the space before it is built and decide with confidence.

MATERIALS LAB

We test and compare materials: their properties, durability and aesthetic potential.

04 SERVICES

SERVICES

Four complementary areas, with a single team and a single point of contact.

ARCHITECTURE

From the preliminary study to construction supervision.

INTERIOR DESIGN

Every detail, from the colour palette to the furniture.

GRAPHIC DESIGN

Identity, branding and communication.

CONSULTING

Investment strategy and risk management.

ARCHITECTURE

Architecture should contribute to a planet we want to live on, today and in the future. Each project responds to and belongs to its site, its programme and its budget, with a clear commitment to sustainability.

We develop complete architecture projects, from the preliminary study to construction supervision, using BIM to integrate and coordinate the design, and BIMx and virtual reality to explore the spaces before they are built.

SCOPE

Single-family and multi-family housing
Mixed-use buildings
Public facilities
Schools, hospitals and museums
Urban planning and masterplans
Detailed plans
Urban rehabilitation
Licensing
Construction documents

STAGES

01 Client briefing
02 Survey
03 Creative process
04 Concept presentation
05 Client approval
06 Licensing
07 Construction documents
08 Technical assistance

INTERIOR DESIGN

Interior design is an extension of architecture at the scale of detail, combining aesthetics and functionality in spaces that reflect the identity of those who live in them. From layout to lighting, from materials to furniture, every choice contributes to comfort and timelessness.

The selection of finishes draws on our materials library, while 3D models and virtual reality make it possible to explore the space before construction.

SCOPE

Residential
Commercial and retail
Offices
Corporate spaces
Hospitality
Restaurants
Coliving and coworking
Bespoke furniture
Materials and finishes selection

GRAPHIC DESIGN

Graphic design translates a brand's identity into a visual language, in dialogue with architecture and interiors. From its story to its positioning, every element contributes to communication that is coherent, expressive and recognisable.

Brand creation goes hand in hand with the design of the space, combining artistic expression and strategy to establish a clear and consistent relationship between the visual identity and the experience of those who use it.

SCOPE

Brand creation
Visual identity
Logo
Brand guidelines
Stationery
Brochures and catalogues
Web design
Signage
Vehicle and space applications

STAGES

01 Briefing
02 Research and concept
03 Identity design
04 Applications
05 Brand guidelines

CONSULTING

Real estate investment consulting brings together architecture, the market and strategy to identify opportunities and create lasting value. Each analysis considers the potential of the property, the investment goals and the risks involved.

Technical, economic and planning feasibility studies, market studies and architectural and construction due diligence support informed decisions, from acquisition to project development.

SCOPE

- Technical / economic / planning feasibility
- Market studies
- Real estate benchmarking
- Architectural / construction due diligence
- Investment planning
- Portfolio management
- Functional programmes / Project concepts
- Cost estimates / Budget control
- Risk management
- Sustainability and energy efficiency
- Real estate product positioning
- Support to investors and funds

STAGES

- 01 Analysis
- 02 Feasibility study
- 03 Strategy
- 04 Programme and concept
- 05 Follow-up

SANTA MARTA 35

Located in the vibrant heart of Lisbon, just steps from the iconic Avenida da Liberdade, Santa Marta 35 is a modernist residential development that blends architectural elegance with heritage charm. The project is composed of two distinct buildings, separated by a central courtyard, where the private patios and gardens of the residences create a serene retreat within the city.

CASA ELO

Casa Elo is the rehabilitation of a five-storey modernist house in Restelo, Lisbon, with architecture and interior design by TEKSTUDIO. Between Luanda and Lisbon, water has always been part of this family's life: first the Atlantic, then the Tagus at Parque das Nações, and now, in Restelo, the river and the ocean are once again part of the view from home.

ARCHITECTURE · SINGLE-FAMILY HOUSING

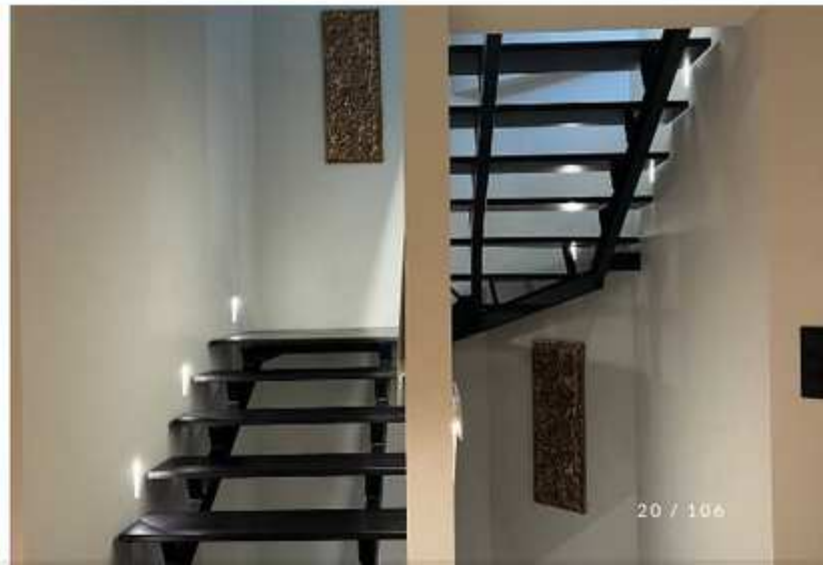

CASA RAIZ

More than a space, a return. Casa Raiz, in Lisbon, is born from the meeting of matter and memory: a place where the present is anchored in the essential. Each texture evokes a trace of history, each shadow draws silence. The neutral tones, warm wood, aged iron and black marble are not just aesthetic choices: they are fragments of time, echoes of lived experiences.

ARCHITECTURE · SINGLE-FAMILY HOUSING

QUINTA DE SÃO JOSÉ

Quinta de São José is the rehabilitation of a farmhouse in Alcobaça, turned into a single-family home of around 310 m² between 2022 and 2026. The project restores the character of the original building and adapts it to contemporary life, with simple, long-lasting materials in keeping with the scale of the place, where natural light and the design of the spaces set the tone of daily life.

ARCHITECTURE · SINGLE-FAMILY HOUSING

CARNIDE

Moradia Carnide is the reconstruction and extension of a single-storey house on Rua das Parreiras, in the historic core of Carnide, Lisbon. The street still keeps its old rural character, with cobbled paving and simple two-storey houses, and the building belongs to a group of six dwellings listed in the Municipal Heritage Charter. The project treats this heritage as an asset for the city.

CHALET CONDE D'ALMEIDA ARAÚJO

The rehabilitation and design of the Chalet Conde de Almeida Araújo respected the eclectic, mannerist and art déco architectural language of the original construction of 1904. Two fires destroyed all the interiors of the building. We believe the original finishing works were full of detail, therefore the proposal is based on a reinterpretation of similar palaces of the same period.

CASA AXIS

Casa Axis is the interior design of an apartment in Restelo, Lisbon, for a curious, well-travelled couple whose life is always evolving. The concept starts from the Latin word axis: the line, real or imaginary, around which a system is organised. In anatomy, axes run through the body and act as pivots for its movements; in architecture, they define symmetry and orientation.

INTERIOR DESIGN

QUADRATTO

Quadratto is the interior design of an apartment in Lisbon. The concept starts from the square, the simplest and most serene of shapes, and from its repetition: modules, rhythms and proportions that become timber panels, doors, niches and shelves, bringing order and calm to the whole home. The palette is warm and natural: pale oak, travertine, linen fabrics and textured walls, raw stone and wool rugs.

INTERIOR DESIGN

CASA M2

Located in Lisbon's Marvila neighborhood, this interior design project combines the essence of the ocean, surfing, and the Serra da Estrela mountains in a modern and dynamic way. The design features a bold use of intense blues, reflecting the depth of the sea, while textures inspired by the rugged mountain landscape—such as burel wool—add warmth and tactile interest to the space.

INTERIOR DESIGN

PATINO

Casa Patino is an architecture and interior design project for a family home in Quinta Patino. The starting point was the client's references: spaces of timeless elegance, welcoming and with a strong sense of hospitality. The concept draws on the poem "Evohé Bakkhos" by Sophia de Mello Breyner Andresen and the taste of sun and resin it evokes.

HWAPAMA

HWAPAMA is a company that distributes building materials and cement products, based in Huambo, Angola. The name comes from Umbundu, the language spoken in the region, and means "strength". Since the company's main business is selling cement, the name speaks directly to the quality that defines the product: strength, resistance and durability. The symbol translates this idea into the language of construction.

ESPAÇO AFRICA

The new logo for Espaço África came from the client's will to renovate his Real Estate company's image. In order to turn the logo more current we kept it simple and minimal while preserving the precedent circular form, inspired by the African sun. We also proposed a different typography and turned the red from before to yellow and orange, symbolizing vitality, prosperity and success.
